

HAYES BAXLEY

DIRECTOR OF PHOTOGRAPHY GSS/LONG LENS/DRONE/UNDERWATER

PHONE: 910.367.6729 EMAIL: HAYESBAXLEYFILMS@GMAIL.COM WWW.BAXLEYFILMS.COM

Hayes Baxley is an Emmy-award winning natural history Director of Photography based in the US. He got his start in wildlife filmmaking in 2008, producing films for National Geographic's natural history unit and currently works as a freelance DOP. Hayes is known for working in remote and challenging locations from the polar regions to the middle of the oceans. He currently specializes in filming with GSS gimbal and has hundreds of hours operating drones, and underwater cameras. He also designs and builds custom remote cameras. His recent work can be seen on National Geographic, Disney, Netflix, AppleTV, Amazon Prime and many more networks.
